

ISMAIL GAYRATOV

Frontend / Full-Stack Developer

Tashkent, Uzbekistan | +998 77 488 7875 | gaismail777@gmail.com | github.com/IsmailGa | linkedin.com/in/ismail-gayratov | @theiisssaaa

SUMMARY

Frontend-leaning full-stack developer with 2+ years of experience building customer-facing and internal applications for the fintech sector, including digital banking (DBO) platforms. Strong with Vue 3 / React / Next.js, TypeScript, and Node.js, with hands-on experience in unit/integration testing, Docker, and CI/CD. Comfortable working in Agile/Scrum teams across frontend, backend, and QA. Currently completing a Bachelor's degree in Information System Engineering. Fluent in English (C1) and open to full-time remote or contract roles.

Backend: Node.js, Express.js, FastAPI, REST API

DevOps & Tools: Docker, Git, GitHub, GitLab CI/CD, Nginx, Apache, VMware

State Management: Pinia, Zustand

CMS / CRM: WordPress, amoCRM

EXPERIENCE

Frontend Developer — Trustbank

Oct 2025 – Jun 2026

Tashkent, Uzbekistan | Fintech / Digital Banking

- Built customer-facing business logic for a digital banking platform, and developed and maintained the internal admin panel using Vue 3 and Vuetify.
- Identified and fixed bugs and refactored existing code to improve performance, scalability, and maintainability — making onboarding easier for new engineers.
- Introduced unit and integration testing with Vitest to raise release stability and reduce regressions.
- Provided technical support to customers and performed rapid root-cause analysis of production issues.
- Collaborated with backend, QA, and design in an Agile/Scrum workflow to ship features aligned with business goals.

Frontend Developer — Multicard Payment

Jul 2025 – Sep 2025

Tashkent, Uzbekistan | Payments / Fintech

- Developed client-facing business logic for the digital banking systems (DBO) of Multibank and Trustbank, and designed and maintained the internal admin panel (Vue.js, Vuetify, Docker).
- Proactively identified and resolved bugs; refactored code to improve performance, scalability, and new-developer onboarding.
- Delivered technical support to clients with fast troubleshooting and issue resolution.
- Worked closely with backend developers and QA engineers under Agile/Scrum methodology to meet shared release goals.

Full-Stack Developer — Anor Auto Zapchasti

Sep 2023 – Apr 2024

Tashkent, Uzbekistan | Automotive / E-commerce

- Built a corporate website from scratch with React.js, with a strong focus on responsive, mobile-first design.
- Implemented multi-page interfaces with React Router and integrated them with external APIs.
- Improved application performance through image optimization, data caching, and efficient state management.

Frontend Developer (Internship) — Realsoft

Jun 2022 – Dec 2022

Tashkent, Uzbekistan | IT / Software Development

- Developed web applications and websites as part of an internship program, gaining foundational experience in frontend development.
