SUMMARY

Frontend developer with 2 years of experience in fintech, building a digital banking platform used by **2,000+ business clients**. Strong in Vue 3, React / Next.js and TypeScript, with practical Node.js experience. Introduced Feature-Sliced Design and automated testing into a production codebase, cutting build time by 70% and reducing client complaints by 35%. Seeking a full-time remote role.

EXPERIENCE

Frontend Developer — Trustbank

Oct 2025 – Present

Digital Banking (DBO) / Fintech | Tashkent, Uzbekistan

- Developed client-facing features and the internal admin panel for a digital banking platform serving **2,000+ business customers** (Vue 3, Vuetify, TypeScript).
- Restructured the project with **Feature-Sliced Design** architecture, making the codebase easier to navigate and speeding up onboarding of new developers.
- Removed legacy and dead code, **reducing the codebase by ~20%** and **cutting build time from 5 min to 1.5 min**.
- Introduced automated testing with Vitest: **20 unit and integration tests** on critical flows, reducing regressions after releases.
- Performed root-cause analysis of production incidents; **client complaints dropped by 35%** over a year.
- Worked in an Agile/Scrum team with backend, QA and design.

Frontend Developer — Multicard Payment

Jul 2025 – Sep 2025

Payments / Fintech | Tashkent, Uzbekistan

- Refactored the payments module of the DBO systems of Multibank and Trustbank.
- Maintained the internal admin panel (Vue 3, Vuetify, Docker).
- Fixed **25 production bugs** and refactored 2–3 modules to improve maintainability.

Full-Stack Developer — Anor Auto Zapchasti

Sep 2023 – Apr 2024

Automotive / E-commerce | Tashkent, Uzbekistan

- Built a responsive, mobile-first corporate website from scratch with React and React Router, integrated with external APIs.
- Improved performance through image optimization, data caching and efficient state management.

Frontend Developer (Internship) — Realsoft

Jun 2022 – Dec 2022

IT / Software Development | Tashkent, Uzbekistan

- Developed web applications and websites within an internship program.
